

Support CKLN Radio!

After 25 years on air in Toronto, CKLN 88.1 FM at Ryerson University had their licence revoked by the CRTC, despite raising over \$50,000 from the people of Toronto in a recent fundraising drive, proving the community likes their community radio. Please help respectfully disagree with their decision by contacting your Federal MP's and asking them to intervene, contacting the CRTC and asking them to reconsider, contacting the media with your thoughts and sharing the online petition. With consolidating media, it's good for the people of Toronto to have an independent voice for alternative music and opinions. Please see www.CKLN.fm for more details. Thank you! 😊
